Allowable Subject Matter

1. Claims 1-4,9-14,19 and 20 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1, 12 and 19 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose detecting a connection status in a network by using a request frame comprising a MAC address and a reply frame comprising a MAC address, where the request and reply frames are formed independently of an IP address and the connection status is determined within the link layer according to receiving the reply frame, wherein if the second node comprises a network interface card (NIC), the second node transmits the reply frame only when a destination address of the received request frame comprises a MAC address of the second node, wherein if the second node comprises a network switch, the second node transmits the reply frame when the destination address of the received request frame comprises a MAC broadcast address; if the second node comprises the network switch, the second node selectively transmits the reply frame when the destination address of the received request frame comprises the MAC address of the second node.

It is noted that the closest prior art (YIM US 2002/0052972) shows sending an ARP request for finding out a MAC address of a remote host, and receiving a reply containing the MAC address for such a remote host. However, Yim fails to disclose or render obvious the above underlined limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER P. GREY whose telephone number is (571)272-3160. The examiner can normally be reached on 10AM-7:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Moe Aung can be reached on (571)272-7314. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
